| 7. STS Update | Period Jan 1 – Mar 31, 2023 request due Apr 30, 2023 Period Apr 1 – May 31, 2023 request due Jun 30 Jul 15, 2023 June is a challenging month for a number of states due to fiscal year close out. Discussion about the most appropriate due date for Period Apr 1 – May 31. Agreement to move June 30 due date to July 15. The Foundation needs reports timely so that the audit process has the documentation filed and at the ready and also for keeping the financials in order to lessen the chance of errors being missed. A letter with more details about reimbursement requests will be attached so that each states financial department will have that to refer to. STS Update: Derek Puckett (FS): Tom is in Michigan meeting with the Schiffer's for the contract coordination meeting and FS Fire and Aviation Management for the aircraft carding. Over the last two weeks we held "pre- pre-" coordination meetings with the seven states conducting mating disruption treatments to help with the contractor coordination meeting. After meeting with Al/Mike, we will follow-up with the individual states for the "pre-" coordination meeting to firm-up our plans with the states. The Mission Aviation Safety Plan for the mating disruption treatments has most of the signatures in the Southern Region and still making the rounds in Northeastern Region. The three grants (2nd STS Foundation grant, VT database, and VT tech development) have been initially reviewed by the Southern Region grants shop, but all still require more processing. Agreement to transfer funds to APHIS trapping is also in review. |
