

## Offline Google Maps Reference Sheet

### Open the Google Maps app

Tap

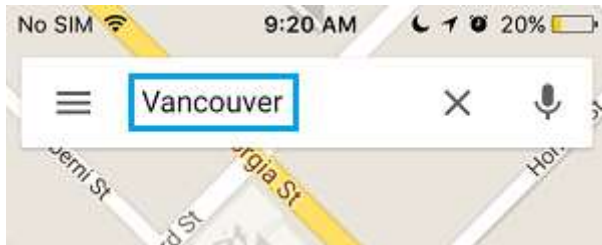

If necessary, go to the App Store to download Google Maps.

### Download area for Offline Use

While in a connected environment (internet access), follow these steps to download a map:

1. Next, use the **Search box** to search for the area for which you want to download an offline map.

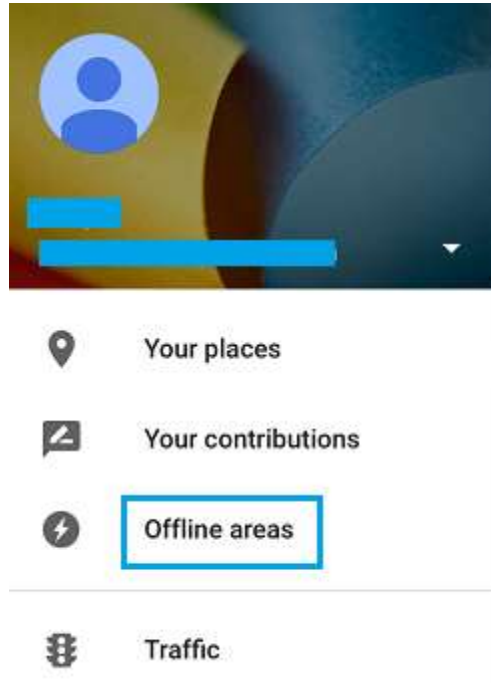

You can either type the name of place such as London, New York, Vancouver etc. or you can get more specific by typing a specific area or zone within a city.

2. Next, tap on the **3 line menu** icon located to the left of the search box (See image below).

3. From the drop-down, tap on **Offline Areas**.

4. Next, tap on the **Plus (+) button** that you will see at the bottom right of your screen. (See image below)

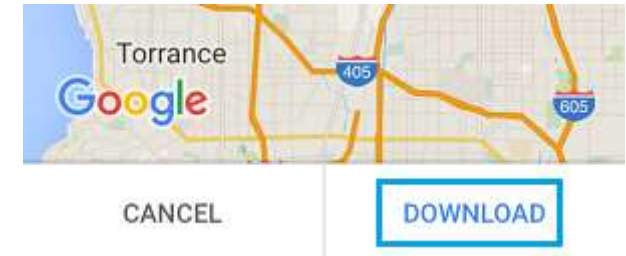

To get directions offline, download an offline area, such as your home city or areas you're traveling to.

5. On the next screen, you may see a message saying **Area too large, zoom in**. Just double tap or

pinch on the **Area** that you are interested in. You will be zooming into the Area and the "Area too large" message will go away.

6. Next, tap on the **Download** button located at the bottom right of your screen (See image below).

7. On the next screen, **Enter Name** for the offline area and tap on **Save**.

10. Wait for the map to be downloaded to your device.
